Crashing waves — As Hurricane Dennis passed by Guantanamo Bay on Thursday, July 7, seas offshore were 12-14 feet above normal as they crashed into the seawall just east of the lighthouse. Sustained winds were recorded at 35 knots, gusting to 47. At its closest point, the eye of the storm was 87 nautical miles southwest of the base. Maximum rainfall was just over 1 inch. Most of the base beaches were littered with debris, and all but Windward beach will be open for use this weekend.

GTMO welcomes new base commander

By Stacey Byington

CAPT Lawrence S. Cotton, USN, relieved CAPT Leslie J. McCoy, USN, as Commander, U.S. Naval Base Guantanamo Bay, and Commanding Officer, U.S. Naval Station Guantanamo Bay, Saturday, on July 9.

Earlier this week he addressed all station officers, chief petty officers, and department heads, informing them of the change in command, and addressed the community at large over the base radio station.

"All base policies and instructions will remain in effect," said CAPT Cotton.

"My top priorities are ensuring that we continue to support the mission of the base; ensuring that everyone works together as a team; and

CAPT Lawrence S. Cotton

maintaining the base's high command culture.

"I am not going to be making immediate changes, and I want everyone to know that we have good people in our leadership positions. It is my job to ensure that the job gets done by people who need to do those jobs.

CAPT Cotton said he is not 'acting.' He is the base commander, and will remain at GTMO until a new commander arrives.

CAPT McCoy has transferred to the staff of the Commander, Navy Region Southeast (CNRSE) as the special projects officer.

CAPT Cotton received his commission in the Navy through the ROTC program and was designated a Naval Flight Officer in 1977.

His first duty station was with Patrol Squadron 8 (VP 8), NAS Brunswick, Maine, where he deployed to Bermuda, Lajes Azores (Portugal), and Rota, Spain.

Other sea tours include duty as the Operations Administrative Officer on the USS Enterprise (CVN 65),

deploying to the Western Pacific and Indian Oceans, and the Mediterranean Sea; Tactics and Operations Officer of VP 45, NAS Jacksonville, Fla., deploying to Bermuda for the first deployment of the P-3C Update III aircraft in the Atlantic theater; Tactics Officer on the staff of Commander, Patrol Wings Atlantic; Executive Officer of VP 5 at NAS Jacksonville in 1991, assuming command in July 1992, during which time the squadron deployed to Keflavik, Iceland, and earned the Arnold Jay Isbell award for antisubmarine warfare excellence; and Chief of Staff to Commander Maritime Surveillance and Reconnaissance Forces U.S. Sixth Fleet, participating in Operations

FCPOA mentors junior Sailors

By JO1 Bob Lamb

One of the top priorities of the Chief of Naval Operations, ADM Vern Clark, was to introduce a Navywide mentorship program. This program gives each Sailor, E-1 to O-10, the opportunity to reach his or her full capabilities, both professionally and personally.

This program essentially designates all sailors as mentors and role models for each other. On the eve of the ADM Clark's retirement, his vision of a mentorship program is in full force.

The base's First Class Petty Officers Association (FCPOA) recently invited a number of junior petty officers to a luncheon at the Windjammer Club. The purpose of the meeting was to make sure junior Sailors know there are resources available to those who may be unsure of how to reach their goals while in the Navy.

"Most of our junior Sailors have never had the opportunity to engage in an FCPOA meeting or luncheon," said FCPOA president LN1(SW) Felecia McLean. "Each one had the opportunity to speak and talk about their goals or what benefit it was for them to be there."

As with most mentoring programs, the FCPOA's goal is to provide Sailors with informal avenues for advice and guidance. The effectiveness of the mentoring program can be measured with accountability and leadership.

"It is important that junior Sailors see what we're doing because they will be standing in our footsteps very soon," said McLean. "They are the present and the future of today's Navy. Most of them rely on us and truly look up to our leadership and mentorship," said McLean.

With increasing competition for advance-

Photo by Stacey Byington

LN1(SW) Felecia McLean, FCPOA president, and EM1(SW) Gavin Kumar, FCPOA vice president, help MA2(SW) Liquila Patterson navigate through Navy Knowledge Online (NKO)..

ment in the Navy, Sailors need to know that they have someone they can talk to about education opportunities, fitness standards and even selection board processes. Having a person they trust giving them career guidance benefits both the Sailor and the Navy.

"Young sailors are the present and the future of the Navy and the world," said HT1 Jeffrey Mays. "Passing on our thoughts and ways of doing business gives them ideas on how they will conduct business for themselves when placed in leadership roles. It broadened their horizons.

"We may not have all the answers, but a good sailor learns from everyone and every situation."

The feedback has been positively overwhelming.

"I look forward to joining you all one day in the FCPOA," said DK2 Anthony Russell, one of the junior sailors attending the luncheon. "I would like to thank PN1 Winfred Green for letting me attend. Working with PN1 Green has been a real privilege. He helps me a lot with my professional growth. He's a good example of what a First Class is and should be."

Being a mentor is strictly voluntary, and it doesn't matter whether you are a First Class Petty Officer, Second Class, even a seaman, making a difference in someone's life can be

as rewarding as being in the Navy.

"I'm sure the FCPOA will have more luncheons like this one," said Mays. "We are focused and also know what the Navy expects of us. We are a team."

MCPON Terry Scott, recently talked about how important the mentorship program is to every command in the Navy.

"I encourage everyone, especially Chiefs and Petty Officers, to think about all the times you were preparing for advancement... studying for the exam, completing your rate training manuals. And I think you would agree, that no one has gotten to where they are, without the help and guidance of someone along the way," said Scott.

"Mentoring has always been an unspoken role of every Navy leader. We've always had a culture of 'Sailors take care of Sailors.'

"Well now we will bring it together as a formal program. That is why I'm counting on all of you to fully support the CNO's plan to assign every Sailor a mentor.

"Mentoring is a great way to help your Sailors succeed, by sharing the knowledge and experiences that have benefited you. Mentorship works both ways – it allows leaders to get to know and better understand their Sailors, and it gives junior Sailors an insight into experiences they may have never had."

Sailors of the Quarter — *EM1(SW/AW) Paul Leyden is the U.S. Naval Hospital Guantanamo Bay Senior Sailor of the Quarter for the second quarter CY2005, and HM3 Rebecca Lopez in the hospital's Junior Sailor of the Quarter. Ledon, a native of Linderhurst, N.Y., joined the Navy in 1989, and currently works in the Operating Management Dept. Lopez hails from Toledo, Ohio, has almost four years in the Navy, and works in the Patient Administration Dept. Both Sailors have demonstrated superior performance far above that normally expected.*

NMCRS Fund Drive results

The final total for this year's annual local Navy/Marine Corps Fund Drive was \$22,053.97.

Driving improvement course

The Naval Station Security Dept. is offering a diving improvement course on Monday, Aug. 15, 7:30 a.m. - 5:30 p.m.

The course is required for the following personnel:

- those who have been cited for serious traffic violations including DWI;
- those found at fault in a traffic accident;
- those who have accumu-

lated seven points or more on their local driving record within the past 12 months;

— those who have been directed to attend by the driver's commanding officer or employer.

To make reservations, get course location, and other information, call the vehicle registration office at 4410.

National Night Out events at Cooper Field

'National Night Out' is a unique crime and drug prevention event sponsored by the National Association of Town Watch (NATW). This year 'National Night Out' is Tuesday, Aug. 2. Here in Guantanamo Bay, the community is invited to join beginning at 5pm.

Last year, approximately 33.3 million citizens, law enforcement personnel, community groups, businesses and local officials from 9,850 communities from all 50 states, U.S. territories, Canadian cities and military bases worldwide joined forces to participate in "America's Night Out Against Crime."

'National Night Out' in GTMO is an annual event that builds community strength and generates support for anti-crime programs.

"'National Night Out' is more than just one night of the year, it is the culmination of year-long prevention activities where people work together to prevent crime and other problems," said MA2(SW/SW) Shaunce McGuffey. "It is an occasion to celebrate past successes, discuss current challenges or issues, and rededicate efforts to improve the quality of life."

McGuffey says crimebusters will be promoting a number of crime-fighting activities and demonstrations, as well as selling food items.

There will also be prizes and a pie-in-the-face event. Sign-up the name of the person you want to get the pie in the face at the NEX.

In a 2002 White House message to the NATW, President George Bush said, "As we face the challenges of a new era, it is important that we continue to build a culture of service and responsibility in America. In that spirit, National Night Out provides a unique opportunity for citizens to prevent crime by promoting civic awareness and strengthening partnerships between neighborhoods and their local police."

The President added, "I commend participants for standing up against crime and for being actively involved in your communities. I also applaud NATW and law enforcement officials for encouraging community-based crime prevention efforts."

National Night Out is designed to:

— Heighten crime, drug and violence prevention awareness;

— Generate support for, and participation in, local anti-crime programs;

— Strengthen neighborhood spirit and police-community partnerships;

— Send a message to criminals letting them know that neighborhoods are organized and fighting back.

Birth Announcement

Richard and Deirdre Evans proudly announce the birth of their baby girl, Julie M. Evans, on July 11. Julie weighed 7 lbs. 13 oz. at birth, and was 23 inches long.

Pass & ID Office moves to Bulkeley

The vehicle registration and fingerprinting office is moving from its offices on the side of the base library to Bulkeley Hall, second floor, rm. 220.

The office will be open for customer service beginning Monday, July 18.

Normal operating hours will

be on Mondays, Wednesdays and Fridays, 9 a.m. - 4 p.m.; on Tuesdays and Thursdays, 8 a.m. - 4 p.m. The offices will be closed on Saturdays, Sundays and holidays.

For more information, call 4410.

Awards ceremony — Command quarters is held for Naval Station Guantanamo Bay on Thursday, June 30. The following personnel received individuals awards: SK1 Dalton Hill was presented with a Navy/Marine Corps Achievement Medal; MA3 Cole Schulz was awarded a Flag Letter of Commendation signed by RADM Annette Brown, Commander Navy Region Southeast; AT1 Matthew Murcin, and MA2 John Carpenter received Letters of Appreciation; ET2 Damon Powell received two Letters of Appreciation. CDR Rich Ruiz, HMC(DV/FMF) Everett Hairston, GMC Daniel Steinhauer, SK1 Dennis Hathorn, MA2 Toshiro Gibson, IC2 Anthony Massey, MA3 Joseph Cassone, ET3 Brian Geiger and MA3 Kenji Shaw all received PRT achievement letters.

Sailor of the Week

AE3 Dominic Rosario, with the base operations calibration lab, is this week's Sailor of the Week.

He is a native of Bronx, N.Y., and has been in the Navy for four years. He has been in Guantanamo Bay for eight weeks.

"I am applying more of the things I learned in 'A' school here than I did at my last station," Rosario said.

He says though he hasn't been here very long, he likes what he sees.

"I am a water-sports fan, and GTMO has lots of activities I enjoy during my off-duty hours."

MWR, FFSC surveys in Sailors' mailboxes

By JO1 Teresa J. Frith, Navy Personnel Command Communications

MILLINGTON, Tenn. (NNS) — Two important Navywide quality of life surveys are now reaching the hands of selected Sailors that will allow them to give their opinions on Morale, Welfare and Recreation (MWR) and Fleet and Family Support Center (FFSC) programs.

Navy Personnel, Research, Studies and Technology developed the surveys in consultation with the Quality of Life Policy and Oversight Division within the Fleet Support Department of the Navy Personnel Command and Commander, Navy Installations. The survey results will be used to gauge satisfaction with these two programs.

The MWR survey covers programs and services such as child and youth development, fitness centers, golf, bingo, bowling, swimming, outdoor recreation, internet access, and

Photo by PH2 Eli J. Medellin

Chief Of Naval Personnel, VADM Gerald Hoewing meets with Sailors at the All American Restaurant at Naval Station Everett, Wash.

movies, while the FFSC survey covers programs and services that include personal financial management, relocation assistance, transition assistance, spouse employment, deployment support and family advocacy. Questions are about frequency of use, satisfaction, and

the perceived importance of these and other programs.

"In my view, this is one of the most important surveys Sailors can be asked to take. The results will be used by Navy leadership to improve quality of life for all members

of the Navy community," said Bill Mullins, QOL Policy and Oversight Division director, Fleet Support Department, Navy Personnel Command.

Notification was mailed to approximately 35,000 randomly-selected enlisted Sailors and officers evenly divided between the two surveys. The letter includes a user I.D. and the Web site address to access the Web-based surveys. Participation is voluntary; however, responses are highly encouraged since the results of these surveys will make a difference.

They will be analyzed this summer and briefed to top Navy leadership, posted on Navy Web sites and provided to those chosen to take the surveys.

Survey respondents can contact Rosemary Schultz at (901) 874-2284 if they have any questions about the survey.

Preparation is the key, before and after the storm

By Emily Luce for LIFELines

Simply stated, preparedness is presence of mind during an emergency — doing what you must to stay calm and take logical action.

One recommended approach is two-fold. First, create the mental exercise of going through a disaster and anticipating any potential problems and their solutions. Second, reinforce the mental practice with physical preparations that you can keep on hand and ready for any emergency. With these precautions taken, you will be as prepared as possible.

— Make sure all family members know what to do in emergencies.

— Go over procedures for specific emergencies that are particular to your area, such as

hurricanes, earthquakes, etc.

— Establish a family meeting place and an out-of-town phone contact just in case.

— Have a daytime plan and meeting place for instances when families may become separated.

— Know your neighbors. Keep track of them. Let them keep track of you.

— Include pets in your emergency planning.

— Teach and reinforce to children the importance of emergency preparedness. This will help you remember what to do, as well.

— Keep a general emergency kit stocked with flashlights, extra batteries, battery-powered radio, candles and/or lantern, first aid kit, knife,

blankets, can opener, a three-day supply of bottled water and canned food, medications, suitable clothes and sturdy shoes, and important documents, including medical records, insurance, and proof of identity. Don't forget a list of important phone numbers.

Because your emergency kit is for emergencies, don't bury it under a bunch of stuff in a closet or put it in a dark corner of the attic or basement. Keep it in an easily accessible area where you can grab it should the need arise.

Obviously, you should tailor your emergency kit for your family's needs.

— Keep the outside of your home "storm safe." Notice what's around your house in

terms of wiring and large objects such as telephone poles and trees. Keep dead trees and limbs cut back and away from the house. Make sure wiring is in good order.

— Know where your power supply originates, and while you're at it, where your circuit breaker is and how to use it.

For further, storm-specific information, visit the Red Cross web site at www.redcross.org, or the FEMA web site at www.fema.gov.

Editor's note: GTMO residents can check out 'Storm Watch 2005. Click on the link on the Gazette Online page on the base website at www.nsgtmo.navy.mil/Gazette%20Online%20Ed.htm.

Critical Days of Summer

Skateboarding: full of thrills, spills

By Ken Testorff, Editor, *Sea & Shore Magazine*

A 21-year-old E-2 is skateboarding when the wheels hit a rock, and he falls. He loses an estimated 90 workdays with a broken ankle.

A 31-year-old E-6 trips and falls while skateboarding down a 3-foot wooden ramp. He loses 21 workdays with a broken leg.

A 19-year-old E-2 loses his balance and falls while sliding down a stairwell handrail on his skateboard. He loses 30 workdays with a fractured ankle.

These Sailors are among more than 15,600 skateboarders who, according to the U.S. Consumer Product Safety Commission, end up in emergency rooms each year for treatment.

Fractures are common injuries for skateboarders, and there are deaths from collisions with motor vehicles and from falls.

Irregular riding surfaces account for more than half of the skateboarding injuries resulting from falls; however, wrist injuries — usually sprains or fractures — are No. 1. Skateboarders who have been skating for less than a week suffer one-third of all injuries.

The National Safety Council offers this guidance:

Use protective gear.

Boards have varying characteristics for different types of riding (e.g., slalom, freestyle or speed). Some boards are rated to the weight of the user. Protective equipment, such as closed, slip-resistant shoes, helmets, and specially designed padding, may not fully protect skateboarders from fractures, but wearing the gear

can reduce the number and severity of cuts and scrapes.

Padded jackets and shorts are available for skateboarders, as is padding for hips, knees and elbows. Wrist braces and special gloves also help absorb a fall's impact.

The protective equipment currently on the market is not subject to government performance standards, and careful selection is necessary.

In a helmet, look for proper fit and a chinstrap; determine if the helmet blocks vision and hearing. If padding is too tight, it could restrict circulation and reduce the ability to move freely. Loose-fitting padding, on the other hand, could slip off or slide out of position and reduce its effectiveness.

Learn how to fall.

If you are losing your balance, crouch on the skateboard so you won't have as far to fall.

In a fall, the idea is to land on the body's fleshy parts. Try to roll if you fall, rather than absorb the force with your arms. While it may be difficult

during a fall, try to relax your body, rather than go stiff.

Tips for using a skateboard

— Give your board a safety check each time before you ride. Always wear safety gear.

Never ride in the street. Obey the city laws. Observe traffic and know areas where skating is permitted or prohibited. Don't skate in crowds of non-skaters. Never have more than one person on a skateboard.

Never hitch a ride from a car, bicycle or other such means. Don't take chances; complicated tricks require careful practice and a specially designated area. Learn to fall. Practice falling on a soft surface or grass.

For more information, check out these websites: <http://www.cpsc.gov/cpscpub/pubs/093old.pdf>; <http://www.nsc.org/library/facts/skateboard.htm>.

droid army to justice.

MWR

Happenings

4-on-4 Volleyball Tournament

Come join the Liberty Center for an afternoon of fun playing volleyball at Club Survivor Pit on Saturday, July 16. A minimum of one female per participating team. Registration must be called in by noon on Wednesday, July 13. Tournament will be held only if four or more teams have registered. FMI call 2010.

Windjammer Dinner Theatre

Monday, July 18, at 5:30 p.m. Coming soon to the Windjammer, dinner and a movie. Bring your family to the Windjammer Club to enjoy dinner and then watch a family oriented G- or PG-rated movie. The movie begins at 7:30 p.m.

Beginner Pottery Class

Thursday, July 21, 5:30 to 7:30 p.m. This class demonstrates the basic techniques of molding and glazing pottery. The class will be held at the MWR Ceramic Shop located in Bldg AV 81. Sign-up is required before the class. Cost \$50 per student. Clay and tools needed for the class will be provided. FMI call 4795.

Knowledge Bowl 2005

Friday, July 22, at the Windjammer Club. All departments, divisions, and commands are invited to send one or more teams of four to compete for prizes and a magnificent trophy. As teams advance, the competition and questions get more difficult. In the end, one winning team is crowned "The Supreme Keepers of Arcane Knowledge." Organize a team of four to represent your unit. Provide the names and contact information for each team member. All teams must register before July 21. Competition begins at 7 p.m. FMI call 4700.

Liberty Night Fishing

July 22, at 5:30 p.m. Boat returns at midnight. Trips includes an introduction to bot-tom fishing, rigging poles, baiting hooks, maintaining gear. We will bring you to the hottest fishing spots and provide bait (her-ring/ squid), beverages and chips. Skippers are on a volunteer status. If interested in becoming a volunteer for future trips please contact Anna at 2010. Space is limited. Sign-up required.
